C:\ProgramData\Anaconda3\envs\muiiya\lib\site-
packages\statsmodels\tsa\stattools.py:1850: FutureWarning: The behavior of using
nlags=None will change in release 0.13.Currently nlags=None is the same as
nlags="legacy", and so a sample-size lag length is used. After the next release,
the default will change to be the same as nlags="auto" which uses an automatic
lag length selection method. To silence this warning, either use "auto" or
"legacy"
